OBJECTIVE

Versatile and skilled Software and Information System Tester seeking opportunities to apply expertise in diverse industries. Proficient in programming languages, software development methodologies, and database management. Committed to delivering high-quality results and driving excellence in software testing and system analysis through effective collaboration. Eager to contribute problem-solving skills and attention to detail to support dynamic and innovative teams.

TECHNICAL SKILLS

- Proficient in Python and Java programming languages
- Familiar with Agile software development methodologies
- Experienced in database design and management
- Knowledgeable in network programming and operating systems
- Proficient in data structures and algorithms

CORE COMPETENCIES

- Highly organized with strong time management skills
- Adaptable and able to work well in a fast-paced environment
- Bilingual in English and Arabic, with the ability to communicate effectively with diverse groups
- Creative problem-solver with a goal-oriented focus
- Strong attention to detail and ability to work independently or as part of a team

EDUCATION

- **Computer Programming, Algonquin College, Two Years Ontario College Advanced Diploma.**   **June 2023**
  Courses included: Programming Language Research Project, Software Development Project, Enterprise Application Programming, Mobile Graphical Interface Programming, Relational Database Design, Object-Oriented Programming, Data Structures, Network Programming, Web Programming, Processor Architecture, Computing Mathematics, Operating Systems, and C Language

- **Enrolled in a Cybersecurity Online Course, Coursera, Six Months program.**   **April 2024**

ACADEMIC PROJECTS

- Online Bookstore Website
  Description: Developed a fully functional e-commerce website for selling books online. The website allowed users to browse books, add them to a cart, and make secure online payments.
  Technologies Used: HTML, CSS, JavaScript, PHP, MySQL
  Role: Designed and implemented the front-end user interface using HTML and CSS. Developed dynamic functionality using JavaScript. Integrated the website with a MySQL database for storing book information and user details.
  Achievements: Received positive feedback from the instructor for the user-friendly interface and seamless shopping experience.

- Event Invitation Web Application
  Description: Created a web application for sending event invitations to a targeted audience. Users could create and customize event invitations, manage guest lists, and track RSVPs.
  Technologies Used: HTML, CSS, JavaScript, Node.js, MongoDB
  Role: Collaborated with a team to design and develop the front-end interface using HTML, CSS, and JavaScript. Implemented the back-end functionality using Node.js and MongoDB to store invitation data and manage guest lists. Conducted testing and debugging to ensure smooth operation.

Achievements: Successfully deployed the web application and received positive feedback from users for its ease of use and efficient invitation management.

WORK EXPERIENCE

Construction Manager and Estimator, Ottawa Zain Construction Inc.   **2020 – 2022**
- Successfully managed and designed estimates for customers.
- Created bills for projects and ensured they were completed within budget and on time.
- Communicated effectively with clients to ensure satisfaction.
- Developed project timelines and ensured all tasks were completed in accordance with deadlines.

Teacher's Assistant Arabic School (Alnoor)   **2016 - 2017**
- Assisted teachers in the classroom and provided support for children.
- Facilitated the provision of supplies and helped with administrative tasks.

OCISO Youth Center   **2015 - 2017**
- Created murals and other artwork to decorate the youth center.
- Provided face painting for children during events.
- Photographed performances at large events.
